## Peter Barcus: The Treasurer's Report

Only Peter Barcus can take a treasurer's report and make it fun. He first let us know that our membership application is no longer called a green card because it is no longer green. Makes sense. He also informed us that our quarterly billings will be for the same amount each quarter from now on, the figure being \$186.65. Each member is encouraged to give an additional \$100 to the Rotary Foundation each year so that we can maintain our 100% Sustaining Status. You can do this online at the RI website, or, if you include the extra amount in your quarterly check, Peter will forward it to the right place.

The budget makes some assumptions.

1. We will average at least 53 members.
2. 8% will end up being uncollectable for one reason or another, not a good figure for a club that stands for integrity. We can do better.
3. We will average 36 members being at our lunch meetings, which allows the club to pocket the lunch fees of those who are absent. This is consistently our biggest "fund raiser."
4. Assumes lunch prices will remain the same, which now are \$10.29 per week.

This year the club set a goal of raising at least \$5800 using various events. Essentially we have a break even budget and about \$15,000 in savings for emergencies or whatever we choose.

She said she is looking forward to being more involved in the club in the future.

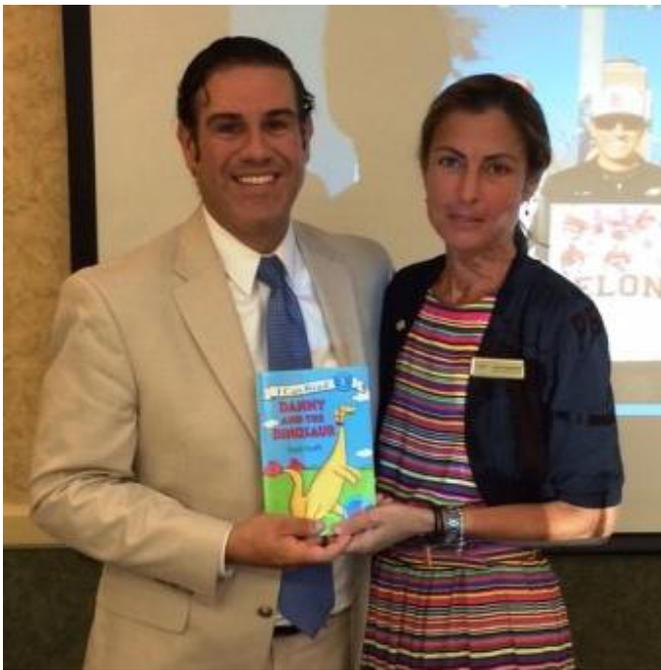

## Program: Craig Edwards' Liver Transplant Story

Craig Edwards was on hand today with his wife Bethany to tell us about his difficult year and a half journey toward receiving a liver transplant last February. He attended UNCG. Bethany is a Burlington native. They have three children and attend Trinity Worship Center. In February 2014, he discovered that he was in end-stage liver failure due to a genetic disorder. He was told he would need a transplant in 2-3 years. In November 2014, he developed a serious clot in the portal vein to the liver, which eliminated the possibility of receiving a partial transplant from a relative. He would need a complete liver with its portal vein to survive. In January 2015 he became disoriented at work due to increasing liver failure and was given 2-3 months to live without a transplant. He and his wife began a campaign with Fox8 to find a directed donor, which is when a person chooses to donate to another person specifically. It is very rare for this to happen, but that is exactly what eventually took place. On February 19, 2015 a woman died. Her family was asked

if they knew of anyone they would want to have the liver.

A youth minister remembered seeing Craig's name on Facebook and recommended him. Even though there is only about a one percent chance of such a liver being a match, it worked perfectly! This is the first time anyone ever received a transplant using social media.

Craig said that he had peace throughout the entire ordeal, even joking with the doctors about not fumbling his liver. He said that his church and many others were praying, and that he and his wife never lost faith; although, at times things looked bleak. His recovery was nothing short of miraculous. Since that time, he met the family of the donor, whose name was Candy Sims. Craig is now in the process of setting up the Gift of Hope and Life Foundation to help others who need transplants to find donors. He recommended going to [DonateLifeNC.com](http://DonateLifeNC.com) to set yourself up to be an organ and skin donor. He said he is very thankful to God and to the community which supported him so strongly.

At the end of his presentation, President Dukeshire told him that a children's book will be donated by our club in his honor to a local school or agency.

## Card Drawing

Susan Watson's table held the winning ticket, but she failed to pull the elusive winning card. Now only 44 cards stand between you, the jack of hearts, and the pot. Your odds are getting better every week.

## Closing

As is our custom, we all stood to recite the Rotary Four Way Test, which was led by President Dukeshire, who afterward adjourned the meeting. Until next week...
